NBI Canadian Family Business ETF

Investment Objective

The NBI Canadian Family ETF's investment objective is to ensure long-term capital growth by replicating, to the extent reasonably possible and before fees and expenses, the performance of a Canadian equity index that measures the investment return of family-owned Canadian companies that are publicly listed. Currently, the NBI Canadian Family ETF tracks the performance of the NBC Canadian Family Index (or any successor thereto). To do this, the NBI Canadian Family ETF invests directly, or indirectly through investments in securities of other mutual funds, in a portfolio comprised primarily of shares of family-owned Canadian companies.
