## NBI Global Private Equity ETF

### Investment Objective

The NBI Global Private Equity ETF's investment objective is to generate long-term capital growth by replicating, to the extent possible and before fees and expenses, the performance of a global private equity index that measures the investment returns of publicly-listed private equity issuers. Currently, the NBI Global Private Equity ETF tracks the performance of the Morningstar® PitchBook Developed Markets Listed Private Equity Select IndexSM (or any successor thereto). To do this, the NBI Global Private Equity ETF invests directly, or indirectly through investments in securities of other mutual funds, in a portfolio comprised primarily of securities of globally listed private equity companies and investment vehicles.

## NBI Global Private Equity ETF

### Disclosure

NBI ETFs are offered by National Bank Investments Inc., a wholly owned subsidiary of National Bank of Canada. Commissions, management fees and expenses all may be associated with investments in exchange-traded funds (ETFs). Please read the prospectus or ETF Facts document(s) before investing. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. ETF units are bought and sold at market price on a stock exchange and brokerage commissions will reduce returns. NBI ETFs do not seek to return any predetermined amount at maturity. Index returns do not represent NBI ETF returns. The indicated rates of return are the historical total returns for the periods including changes in unit value and reinvestment of all distributions and do not take into account redemption, commission charges or income taxes payable by any unitholder that would have reduced returns. Past performance may not be repeated.
