NBI Sustainable Canadian Bond ETF

Investment Objective

The NBI Sustainable Canadian Bond ETF's investment objective is to provide a high level of current income and sustained capital growth while focusing on debt instruments designed to raise funds for projects or businesses that have a positive environmental or social impact. To do this, it invests, directly or through investments in securities of other mutual funds, in a portfolio comprised primarily of bonds issued by Canadian federal or provincial governments or by Canadian corporations. It is expected that investments in foreign securities will not exceed approximately 30% of the ETF's net assets.

NBI Sustainable Canadian Bond ETF

Disclosure

NBI ETFs are offered by National Bank Investments Inc., a wholly owned subsidiary of National Bank of Canada. Commissions, management fees and expenses all may be associated with investments in exchange-traded funds (ETFs). Please read the prospectus or ETF Facts document(s) before investing. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. ETF units are bought and sold at market price on a stock exchange and brokerage commissions will reduce returns. NBI ETFs do not seek to return any predetermined amount at maturity. Index returns do not represent NBI ETF returns. The indicated rates of return are the historical total returns for the periods including changes in unit value and reinvestment of all distributions and do not take into account redemption, commission charges or income taxes payable by any unitholder that would have reduced returns. Past performance may not be repeated.
