Investment Objective

To ensure long-term capital appreciation while following a responsible investment approach to investing. To do this, it invests primarily in a diverse mix of Canadian and Global mutual funds (that may include exchange-traded funds ("ETFs")) that are fixed income funds and equity funds. In addition to the use of ESG integration, exclusions and stewardship activities, other responsible investment approaches as defined in the investment strategy can be used. See the prospectus for more details. The fund may invest up to 100% of its assets in foreign securities.
